## for the climate

We are committed in our extensive efforts to growing our business in full alignment with the principles of environmental and social responsibility. Having adopted the ESG framework in our business operations, we are confident that we are moving in the right direction.

We set ourselves a goal to reduce Scope 1+2 greenhouse gas emissions by 10% by 2026 and 15% by 2031 versus 2021.

WE PLAN TO ACHIEVE OUR GOALS BY:

1.

INVESTING IN RENEWABLE ENERGY

2.

STRIVING TO REDUCE BOTH PROCESS AND PRODUCT EMISSIONS

3.

FOLLOWING THE PRINCIPLES OF CIRCULAR ECONOMY

4.

OPTIMIZING THE USE OF NATURAL RESOURCES
